Hi Colleen: I inadvertently pressed the send button without typing a message in the prior email. Attached as a courtesy is a field modification we submitted to Mike Cirian to allow us to complete 7 soil borings within the Borrow Pit area for the CFAC site. The purpose of this work is to allow us to assess soil quality and evaluate suitability for use as a backfill within the Plant area. We intend on completing this work late next week subject to approval from Mike Cirian. The scope is self-explanatory within the attached documents. Please feel free to contact me or Mike Ritorto if you have any questions. Regards,
Drew

Hello Mike,

As discussed, please see the attached modification #6 and associated attachments that summarize the proposed added borings in the borrow pit area. Please let me know if you have any questions.

Michael Ritorto
